# The Aermotix Air cleaner.

We have redeveloped our **Aermotix cleaning units** for your protection. Effective air purification and a reliable concept are particularly important in the fight against the **COVID-19 virus**. Our HV series has been developed in order to produce a room air that is as free of viruses and germs as possible and at the same time to **improve the quality of the air** by removing odors.

## Large area

The Aermotix HV v+, for example, cleans **room sizes** from up to **105 sqm**.

## Anti Covid 19

Our air purifiers are particularly effective against **viruses, bacteria, allergens and pollutant particles**.

## Low noise

The Aermotix air purifiers interfere hardly, due to a low **Noise level**.

The Aermotix air purifiers work with **220 V** electricity and can therefore **be used almost anywhere**.

For large orders of the air purifiers, we offer a corresponding painting in corporate colors and we gladly respond to customer requests.
